

Infrastructure - Task #3158

Clean up erroneous error message in index processing log

2012-08-27 21:37 - Skye Roseboom

Status:	Closed	Start date:	2012-08-27
Priority:	Normal	Due date:	
Assignee:	Skye Roseboom	% Done:	100%
Category:	d1_indexer	Estimated time:	0.00 hour
Target version:	Sprint-2012.35-Block.5.2	Story Points:	
Milestone:	CCI-1.0.4		
Product Version:	*		

Description

While processing system metadata update for ORE/resource maps - the delete from index logic for resource maps needs to check whether the resource map has been copied locally - before processing the delete.

If objectPath is empty, cannot delete the resource map from index - need to update associated resources' data relationships (resourceMap, documents, isDocumentedBy).

History

#1 - 2012-08-27 21:44 - Skye Roseboom

- Status changed from In Progress to Testing

Copied onto 1.0.0 branch, ready for testing.

update cn-index-processor component.

#2 - 2012-09-12 14:23 - Skye Roseboom

- Status changed from Testing to Closed

tested in stage with RC branch code. Error where object path is missing for a delete request from index has been resolved. Testing for existence of object path file location before attempting to process task. integrates with index task retry backoff strategy 3162
