

Requirements - Requirement #317

(Requirement) Identifiers for all objects

2010-03-10 16:57 - Dave Vieglais

Status:	In Progress	Start date:	
Priority:	Low	Due date:	
Assignee:	Dave Vieglais	% Done:	30%
Category:		Estimated time:	0.00 hour
Target version:			
Description <p>All objects in the DataONE system have an identifier that is unique within all of the DataONE infrastructure and can be used to retrieve the object from the system.</p> <p>Rationale:</p> <p>Unique identifiers provide the fundamental, low level mechanism for interacting with content stored in the DataONE system. Unique identifiers help prevent duplication and improve re-usability of information.</p> <p>Fit Criteria:</p> <ul style="list-style-type: none">Any object stored within DataONE receives an identifier that is unique within the DataONE infrastructure.Any object with a DataONE identifier can be retrieved from the infrastructure.Attempts to create a duplicate identifier are prevented.
