Target version:			
Story Points:			

Description

As a member of the Federated Security WG I need a set of requirements to help define the scope and functional characteristics of the authentication and authorization subsystem.

History

#1 - 2010-06-01 15:57 - Dave Vieglais

- Status changed from New to Closed

Notes are gathered into the architecture documentation at http://mule1.dataone.org/ArchitectureDocs/Authentication.html
