Target version:	Sprint-2012.44-Block.6.2	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
Visualization and mapping tools for the data sets: Before the users download the data, several expressed that they wanted to “view” the data -Browsing graphics -Mapping graphics this capability will need some planning and discussion, since the browsable view is entirely dependent on the format of the data file. We may be able to support some common types at first (CSV, PNG, JPEG), and later enable others (mapping, charting, etc.).
