

Infrastructure - Task #3333

Generalize mk_* scripts for host name

2012-10-11 18:50 - Dave Vieglais

Status:	New	Start date:	2012-10-11
Priority:	Low	Due date:

Category:	Support Operations	Estimated time:	0.00 hour
Target version:		Story Points:	
Milestone:	None		
Product Version:	*		
Description			
There is currently a dependency of "-1" in the hostname for the various custom check_mk custom plugins.			
This should be generalized at some point.			
This didn't work:			
testhost=\$(echo \$thishost sed s/-[a-z]*-([0-9])/-\${host}-\1/)
