| Description As indicated in the proposal, we need to deploy three coordinating nodes. One at UNM, one at NCEAS, one at ORC. Rationale This is a requirement of the cooperative agreement for the year one milestones (#318) (prototype implementations of the CNs installed and synchronizing content between themselves). It is also a stated goal in the proposal. Fit Criteria <ul style="list-style-type: none">• Three coordinating node instances installed, one at UNM, one at NCEAS, one at ORC• CNs synchronizing content• CNs retrieving content (science metadata) from MNs• Clients able to retrieve content from CNs• Clients able to search CNs | |
