Description

When calling in cn-dev.test environment I am seeing an error (exception annotation?):

```

This does not occur when I use mn-demo-5 as the MN that calls the CN. So I guess it should be failing from my localhost, but it would be great if the error were more informative. I think we can ignore this right now, unless you are hot on the trail of something obvious.

Unable to replicate the issue. I will need more specific information about actions taken to produce the error.
