Software stack:			
Description As reported by John Kunze on 20121214 LT call. There was discussion during the recent CNI meeting that Fedora will start a new SW rev. effort next year. It may be an opportunity to embed the MN SW stack in the new Fedora version.

- Status changed from New to Closed
- Start date deleted (2012-12-14)
- translation missing: en.field_remaining_hours set to 0.0

Per 2013-10-05 email discussion with Wilson/CJones/MJones/Vieglais, closing this MNDeployment tracker out and will track the effort in [#4051](#). MNDeployment trackers will be used for specific organizations working on becoming MN's. Development of new MN stacks is best tracked as work in the main DataONE project.
