

## DataONE R Client - Task #3440

Story # 928 (Closed): R Client needs to support multiple data formats

### Add support to R Client to read netCDF

<b>Description</b> R has the capability to read and write netCDF files. Where we have netCDF data in DataONE, provide a means to read that data into R through the client. It would be best if this didn't require dumping the data out to a file (at least as far as the end user is concerned).
