<b>Target version:</b>	CCI-0.4		
<b>Story Points:</b>			
<b>Description</b> As the KNB node manager, I want the <a href="#">DataONE</a> getSystemMetadata() method to be implemented for Metacat in order to participate in <a href="#">DataONE</a> - involves looking up the sysmetadata doc from the Identifier, then return it calling existing handleRead() methods - write unit test for getSystemMetadata() REST service
