

Infrastructure - Story #3515

Update one-mercury to match latest dataone.org theme

2013-01-23 18:51 - Skye Roseboom

Status:	Closed	Start date:	2013-01-23
Priority:	Normal	Due date:	2013-02-02
Assignee:	Skye Roseboom	% Done:	100%
Category:	d1_mercury	Estimated time:	0.00 hour
Target version:	2013.4-Block.1.2		
Story Points:			
Description			
Story to capture the work needed to bring one-mercury ui up to the latest look and feel of dataone.org			
Subtasks will be added to document individual changes needed.			
Targeted initially for a 1.1.1 patch release to the 1.1 release of the Dataone CN components.			

History

#1 - 2013-01-29 19:21 - Skye Roseboom

- Status changed from New to In Progress

#2 - 2013-02-14 18:45 - Skye Roseboom

IE is incorrectly rendering the content area of the full metadata view allowing it to span more/less than the header width area.

#3 - 2013-02-14 18:46 - Skye Roseboom

Amber noticed some issues with the new header layout:

- 1) The white bar with ONEMercury and tagline is larger on the dev site, dropping the form lower
- 2) The ONEMercury logo and tagline are not aligned
- 3) The spacing btn words on the red navigation panel is not uniform

#4 - 2013-02-19 16:56 - Skye Roseboom

- Status changed from In Progress to Closed

Released with v1.1.1 one-mercury. However, further refinement may be needed.
