Mark Reyes has requested information regarding migrating from Metacat to GMN. He is now waiting until the import capabilities of GMN are fully tested and functional.

**#14 - 2018-01-09 21:11 - Dave Vieglaiss**

- Sprint set to Ongoing Operational

**#15 - 2018-01-22 14:48 - Mark Servilla**

Mark Reyes has successfully migrated CDL's production content from Metacat to GMN v2.4.1. New node registration reflected below:

```

Monitor for access and synchronization issue is now warranted, as I believe this is the first member node to transition from one software stack to another using the GMN import process.
