<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Story Points:</b>			
<b>Description</b>  Update takes an originalPid as a parameter which is used to set the obsoletes and obsoletedBy fields for the two objects. Can the pid provided for that parameter be for an object that is:  a) archived - ? b) reserved - should be no c) deleted - ? d) "current" but located on different MN  d) may be difficult to test, it would happen only when the original member node stops hosting the original - is no longer the authoritative node - but is still in service.			

History

- #1 - 2015-01-19 22:47 - Dave Vieglais
- Project changed from Infrastructure to Test Resources
  - Category deleted (d1\_integration)
- #2 - 2018-01-09 02:29 - Dave Vieglais
- Product Version set to \*
  - Milestone set to None
  - Project changed from Test Resources to Infrastructure
- #3 - 2018-01-17 20:22 - Dave Vieglais
- Sprint set to Infrastructure backlog
- #4 - 2018-01-17 20:22 - Dave Vieglais
- Assignee changed from Rob Nahf to Roger Dahl
