Category:	Metacat		**Estimated time:**	0.00 hour
Target version:				
Milestone:	None		**Story Points:**	
Product Version:	*			

Description

MN.update implementations should set the archived flag for the object being obsoleted object.

History

#1 - 2013-03-19 20:15 - Ben Leinfelder

- Status changed from New to Rejected

- translation missing: en.field_remaining_hours set to 0.0

My understanding is that on update, "obsoletedBy" is set on the original object and that this is enough to tell our systems that it is no longer the current version.
Archived is for use when there is no "newer" version of the object but it should not be considered active (for searching and for further updates).
