Description

from the query:
http://dev.datadryad.org/mn/v1/log?toDate=2013-03-21T20:11:28.716%2B00:00&start=2000&count=568

I get an xml parsing error in the Chrome browser ("This page contains the following errors:

error on line 3 at column 161742: EntityRef: expecting ';'
Below is a rendering of the page up to the first error.")

I tracked it down to the first occurrence of an identifier using the embedded url query construct   "&ver=something".

The ampersand needs to be escaped, and maybe other xml reserved characters, too.
