CN.updateReplicaMetadata preventing valid update

2013-04-01 19:10 - Skye Roseboom

Description

Discovered while testing replica auditing. The business logic in CNodeService.updateReplicationMetadata prevents an update to the verification date when the replica status is 'completed'. It may be that the status change business logic need only be invoked when the status is changing. Prevents auditing from updating valid replicas with a new verification date.

Creating a patch update for this issue.

#2 - 2013-04-03 20:22 - Skye Roseboom

- File Redmine3699.patch added

patch file attached.

Only throws InvalidRequest regarding invalid status change of a 'completed' replica if the replica status is changing.

- Assignee changed from Skye Roseboom to Matthew Jones

Hi Matt - could you sanity check this patch and commit to metacat?

It is a minor one line change - such that the replica status change validation need only be performed when the status is changing. (Comparing incoming replica's status to the existing replica status)

thanks!

#4 - 2013-04-05 19:35 - Ben Leinfelder

- Assignee changed from Matthew Jones to Ben Leinfelder

I will incorporate this so it is included in v2.0.6

#5 - 2013-04-05 19:38 - Ben Leinfelder

- Status changed from In Progress to Closed
