- Milestone changed from CCI-1.3 to CCI-1.4

#2 - 2013-05-23 18:18 - Skye Roseboom

- Status changed from New to In Progress

Aim it is improve discovery of sci-meta / data packages. Display of these attributes is handled by the eml xslt view layer.

Initial proposal to update index with new :
parameterDescriptions: attribute description text, column name in one multicolumn field
parameterUnits: attribute standardUnit

The text for any new fields should also be added to eml's full text field for exposure in oneMercury's basic search.

#3 - 2013-06-07 14:43 - Skye Roseboom

New index fields:

attributeName
Name of the attribute (multivalued, include duplicate values)

attributeLabel
Longer text label for the attribute. (multivalued, include duplicate values)

attributeDescription
Full text description of the attribute (multi-valued, include duplicate values)

attributeUnits
A multi-valued field containing units. Should probably be aligned with a controleld vocabulary (include duplicate values)

attributeText (name could be better....)
Multivalued contatenated field contained all four attribute values for a single attribute, per value in the array (include duplicates)

Update field:
text
update with the attribute text (dedupe....)
