

Infrastructure - Task #3811

Story # 3809 (Rejected): Create a location for user oriented docs, populate, and publish

Document the "non-standard" certificates being used for accessing content in DataONE and it's member nodes

2013-06-17 17:46 - Dave Vieglais

Status:	New	Start date:	2013-06-17
Priority:	Normal	Due date:	
Assignee:	Rob Nahf	% Done:	0%
Category:	Support Operations	Estimated time:	0.00 hour
Target version:	Maintenance Backlog	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
For various reasons, some member nodes use a server certificate that is not signed by one of the common authorities provided with OS, browser, and other distributions.			
This task is to provide human readable documentation to indicate which extra certs need to be installed and the procedures for doing so for tools accessing those services. For example, web browsers, java and python clients.
