Target version:			
Description As part of the cooperative agreement, it is necessary for DataONE to stand up three Member Nodes by the end of the first year. Rationale This is a requirement of the CA. The intent is perhaps to demonstrate significant progress on the implementation of the proposed infrastructure. Fit Criteria <ul style="list-style-type: none">• Prototype member node functionality is designed• Targets for the prototype member nodes have been identified• Software implementations for the target member nodes are available• Deployed member nodes effectively participate in the DataONE cyberinfrastructure
