Category:	Metacat	**Estimated time:**	0.00 hour
Target version:			
Milestone:	None	**Story Points:**	
Product Version:			

Description

Need to ensure that the Dryad namespace definitions have been imported into metacat's xml schema catalog.   Should be integrated into the metacat buildout process.

Need to be done prior to any D1 integration of a Dryad member node to ensure science metadata can be harvested from dryad mn.
