Description	
<p>The download panel for displaying and downloading data packages associated with metadata files are showing incorrect 'formatType' for some metadata packages from dryad mn. Metadata files are being displayed as "DATA" formatType. The size attribute is also missing from some documents.</p> <p>Happening on the metadata detail view.</p> <p>Also found and fixed js error in M3.downloadPanel.js for displaying metadata files.</p>

Moved xhr backed download panel used on search results to metadata detail view - for code re-use and to fix package display issues documented above. Also fixed font size and increased overlay width.
