Duplicate of #3317. This has already been implemented on a branch, and the decision at the time was not to check it in. See related tickets in this story for other status and workarounds. I'd be happy to have this be added in a v2 of ObjectFormat, but we should discuss.

- translation missing: en.field_remaining_hours set to 0.0

- Status changed from New to Closed

Added ObjectFormat and ObjectFormatList to v2 schema and d1_common. Note that v2.ObjectFormatList does NOT extend v1.ObjectFormatList, whereas the v2.ObjectFormat does extend v1.ObjectFormat.
