Infrastructure - Task #4187

Bug # 4178 (Closed): SSLException during metacat replicate cause hung replication requests

Confirm GMN handles SSL exceptions from source nodes appropriately

2013-11-25 21:59 - Chris Jones

Target version:				
Milestone:	None		**Story Points:**	
Product Version:	*			

Description
If GMN gets an SSL exception during calls to SourceMN.getReplica(), ensure that it also calls CN.setReplicationStatus(FAILED).

History

#1 - 2013-12-17 01:55 - Roger Dahl

GMN calls setReplicationStatus() with a message indicating what went wrong. It tries to cover any error condition including errors returned from the source when calling getReplica().

#2 - 2013-12-17 01:55 - Roger Dahl
