

Infrastructure - Task #421

calculate and store size for metacat metadata and data objects

2010-03-25 00:17 - Matthew Jones

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Matthew Jones	% Done:	100%
Category:	Metacat	Estimated time:	0.00 hour
Target version:	CCI-0.4	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
SystemMetadata for DataONE requires reporting sizes for all objects. Need to calculate and store a size in Metacat's system metadata. Probably store in xml_documents as a property of the doc.

- Status changed from New to Closed

Obsolete, because now the System Metadata docs are being stored directly. At some later point in time we may decide to incorporate sys meta info into the xml_documents table, but for now we don't need this.
