Member Nodes - Task #4274

MNDeployment # 3188 (Deprecated): Kansas University Biodiversity Institute

KUBI: Turn on harvesting/synchronization of data

2014-02-12 20:16 - Laura Moyers

Status:	Closed		**Start date:**	2014-02-12
Priority:	High		**Due date:**	
Assignee:	Chris Jones		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	Operational			
Story Points:				

Description
Do whatever tasks are necessary to "turn on" KUBI and begin harvesting data.

History

#1 - 2014-02-12 20:38 - Laura Moyers

Based on a conversation with Matt Jones...

[15:09] Question: when the "approved" flag is set to yes on a MN, does it start harvesting right then, or is there something else that has to happen to "flip the switch"?
[15:28] once the approved flag is set, the CN will examine the harvest schedule and add it to the queue of harvest tasks to be completed
[15:28] it could be immediate, or it could be delayed, depending on the schedule set and the current load on the CN doing harvesting

...I think there doesn't need to be a separate task for harvest/synch. The ticket for mutual acceptance https://redmine.dataone.org/issues/4273 is the trigger for harvest/synch.
