Target version:		Story Points:	
Milestone:	CCI-1.3		
Product Version:	*		
Description			
Update rule to account that some eml documents do not use date ranges - instead use a single date time. When present this value should be placed in the begin/end date fields of the search index record.			
Feature to track this change for release. To take effect, will need to re-index so that documents using single date time will have data placed in these fields.
