Infrastructure - Task #4323

Story # 3875 (Closed): Create a dashboard (version 1) for DataONE to provide high level overall system status

Add next/previous paging controls using MN names to MN Detail View

2014-03-13 17:20 - Skye Roseboom

Status:	Closed		**Start date:**	2014-03-13
Priority:	Normal		**Due date:**	
Assignee:	Skye Roseboom		**% Done:**	100%
Category:	d1_dashboard		**Estimated time:**	0.00 hour
Target version:	2014.14-Block.2.3			
Milestone:	CCI-1.3		**Story Points:**	
Product Version:	*			

Description

1. How about rather than previous/next, show the name of the previous/next MN, under the current MN detail page title, in a smaller font on left show previous MN and on right show next MN. Some MN names are long, some shorter.

Next/Previous by what kind of order? Alphabetical seems like best option.

Ok to abbreviate names of repos?

A 'select/dropdown' might be a more appropriate control. "go to: "

#2 - 2014-03-13 23:07 - Skye Roseboom

- Description updated

#3 - 2014-03-14 17:12 - Skye Roseboom

- Target version changed from 2014.2-Block.1.1 to 2014.12-Block.2.2

#4 - 2014-03-27 15:24 - Skye Roseboom

- Status changed from New to In Progress

#5 - 2014-03-27 22:56 - Skye Roseboom

- Status changed from In Progress to Testing

Implemented as nav buttons "< prev - summary - next >" with popover text to display node name of 'next/prev'. Using node name as nav text was tough given variable node name lengths.

#6 - 2014-03-31 17:41 - Skye Roseboom

- Target version changed from 2014.12-Block.2.2 to 2014.14-Block.2.3
