

Requirements - Requirement #433

(Requirement) Data and metadata is replicated to at least one other member node

2010-03-25 03:01 - Dave Vieglaiss

Status: Priority: Assignee: Category: Target version:	New Low 	Start date: Due date: % Done: Estimated time:	 0% 0.00 hour
Description Data is copied verbatim to at least one other node. Rationale Replicating information helps to ensure availability after (random or intentional) node inaccessibility. Choices for multiple data retrieval locations improves access efficiency and scalability. Fit Criteria <ul style="list-style-type: none">• Copies of data and metadata are available from more than a single node• Node failure does not prevent data availability• Data and metadata are replicated to at least one other node within XXX minutes of appearing on a Member Node
