Target version:	2014.26-Block.4.1		
Milestone:	CCI-1.2	**Story Points:**	
Product Version:	1.2.7		

Description

We need to understand issues with a Hazelcast installation on an Ubuntu 12.04 LTS base OS with Java 7 and Tomcat 7. Test the installation and add tasks as appropriate for upgrading dependency versions, etc. We may also consider moving to Hazelcast 3.x, so also evaluate what changes would need to be made. This will affect code in Metacat as well.
