

Infrastructure - Task #4799

Story # 4461 (Closed): CCI 1.2.6 Feature Release

create new tag release of d1_jibx_extensions

2014-04-15 21:07 - Rob Nahf

Status:	Rejected	Start date:	2014-04-15
Priority:	High	Due date:	
Assignee:	Rob Nahf	% Done:	10%
Category:	zz_d1_jibx_extensions	Estimated time:	0.00 hour
Target version:	2014.18-Block.3.1	Story Points:	
Milestone:	None		
Product Version:	*		
Description new dependencies introduced to the pom: maven-antrun-plugin maven-clean-plugin maven-jibx-plugin build-helper-maven-plugin maven-javadoc-plugin New classes in jibx.schema.codegen.extend: FieldMatchDecoratorBase NonEmptyNoWhitesaceString800TypeDecorator NonemptyStringTypeDecorator SimpleConstructorDecorator changes to ComparableIdentifierDecorator template			

History

#1 - 2014-04-17 14:59 - Rob Nahf

- Status changed from New to Rejected
- translation missing: en.field_remaining_hours set to 0.0

Looking more closely at the code outside of test, I think that the extra decorator classes are not used in code generation, and are related to desired changes related to having parameterized constructors for simple types. Identifier(String value), for example.

I'm going to reject this ticket, and have the new d1_common_java release use the existing tag.

#2 - 2014-05-05 21:47 - Skye Roseboom

- Target version changed from 2014.14-Block.2.3 to 2014.18-Block.3.1
