<b>Description</b>			
NSIDC offers hundreds of scientific data sets for research, focusing on the cryosphere and its interactions. Data are from satellites and field observations. All data are free of charge. - <a href="https://www.re3data.org/repository/r3d100010110">https://www.re3data.org/repository/r3d100010110</a>			
They are different funding sources sharing the same basic catalog system with NASA DAAC; but the staff are often different, the processes are usually fairly different, and even the type of data archived is different.			

#### History

##### #1 - 2015-11-19 17:50 - Laura Moyers

This is still "exploratory" as we don't currently have a champion at NSIDC.

##### #2 - 2018-04-10 19:12 - Amy Forrester

- Description updated

- Subject changed from NSIDC to NSIDC- National Snow and Ice Data Center
