After Peter's change, both ben and skye did some changes:

r13864 | sroseboo | 2014-05-23 10:32:03 -0700 (Fri, 23 May 2014) | 1 line

fixed index out of bounds error in full text field parser. change was already placed on release branch for 1.2.2 release of index processor - just wasnt on trunk yet.

r13774 | leinfelder | 2014-05-08 12:17:43 -0700 (Thu, 08 May 2014) | 1 line

remove explicit httpclient dependency so that the libclient/common version will cascade through (newer version)

r13760 | slaughter | 2014-05-07 13:06:42 -0700 (Wed, 07 May 2014) | 1 line

Added geohash fields to system metadata index when processing FGDC documents

I believe Skye's change should be included.

I also talked with ben and he said his change may not be include. Ben only changed pom.xml.
