Description

From Bob Cook -

If you could, please go ahead an add the number of current member nodes somewhere on this page. Otherwise, people have to manually count the number of member nodes. For example at the top of the table of current member nodes table you could have a title that says:

Current Member Nodes (NN)

And, while it's easier to count a few, you could still add:

Replication Nodes (NN)

Upcoming Member Nodes (NN).

Where NN is the number.
