#### Description

As a CN developer, I need the [DataONE](#) update() method to be implemented for Metacat in order to serve as an object store for the CN

- involves refactoring current REST interface in metacat to use [DataONE](#) API
- write unit test for update() REST service

#### History

#1 - 2010-05-12 17:57 - Chad Berkley

update is now working. There is a unit test in [CrudServiceTest](#). [SystemMetadata](#) is updated with new values for the obsoletes and obsoletedBy fields as well as the [DateSysMetadataModified](#) field.
