### #1 - 2014-08-26 18:33 - Rob Nahf

that was done to get "logging" from an anonymous class when we were having lots of certificate issues. The fix is removal of one line.

It can be done as a point release (libclient\_java v1.3.1) that can be included in CCI-1.4 release, or wait for next major / minor release.

### #2 - 2014-08-28 20:55 - Rob Nahf

- % Done changed from 0 to 50

- Status changed from New to In Progress

- Assignee changed from Robert Waltz to Rob Nahf

removed trace level statements, converted sys err statements in exception handler to log statements - needed to remove the private scope from the logger in the enclosing CertificateManager class, so the anonymous inner TrustManager class can access it.

Need to merge into v1.3 and v1.4 branches
