Infrastructure - Task #6040

Migrate content on dev-testing to jenkins

2014-08-12 21:52 - Chris Jones

Status:	Rejected	**Start date:**	2014-08-12
Priority:	Normal	**Due date:**	
Assignee:	Dave Vieglais	**% Done:**	0%
Category:	Support Operations	**Estimated time:**	0.00 hour
Target version:	2014.30-Block.4.3		
Milestone:	None	**Story Points:**	
Product Version:	*		

Description

dev-testing.dataone.org has hosted web content and has provided the Hudson build environment. We're migrating to use Jenkins for future builds (using Java 7 and Ubuntu 12.04). Besides the historical build artifacts generated by Hudson, we also need to migrate other hosted content. This includes content in /var/www, /home/jones/web (for client certificates), and likely other content.
