

Infrastructure - Bug #6041

obsoletedBy field serialized with newline after pid

2014-08-13 10:03 - Robert Waltz

Status:	New	Start date:	2014-09-25

Description

When downloading systemMetadata for transfer during the tidy process, I noticed during spot check manual inspection of the systemMetadata XML a newline after the pid of any obsoletedBy element.

Need to confirm that this is an issue with the repair project rather than a corruption of the metacat db.
