Product Version:	*		

Description

Mule1.dataone.org contains the in-flux / development documentation that does not reflect the current production release.

All references to the architecture documentation on mule1 should be changed to releases.dataone.org. The current version of the architecture documentation is located at:

<http://releases.dataone.org/online/api-documentation-v1.2.0/>

History

#1 - 2014-08-26 17:50 - Chris Allen

Dave -

Was this intended for "Chris Jones" and not me?

#2 - 2014-08-26 19:47 - Dave Vieglais

Hi Chris - actually it was meant for you. Any links from dataone.org that point to mule1 for the architecture docs should be updated to the URL provided in the description.

#3 - 2014-09-08 16:42 - Chris Allen

- % Done changed from 0 to 90

- Status changed from New to In Progress

Dave -

In scanning the site I found two references to mule1.dataone.org.

The *first* being at the old "Benefits to become a Member Node" page located at <https://www.dataone.org/become-member-node>.

That page has since been updated to <https://www.dataone.org/member-node-deployment-process>

The file that had mule1.dataone.org was the Member Node Fact Sheet PDF on that archived page <https://www.dataone.org/become-member-node>.

The URL of the file is <https://www.dataone.org/sites/all/documents/DataONEMNFACTSheetFormattedDec1.pdf>

I have since updated that PDF (which had two references to mule1.dataone.org).

The *second* at https://www.dataone.org/member_node_requirements .. "Technical Information on Data Packages" link.

The old link had <http://mule1.dataone.org/ArchitectureDocs-current/design/DataPackage.html>

I updated that to <http://releases.dataone.org/online/api-documentation-v1.2.0/>
