Infrastructure - Task #619

refactor metacat service layer to use string error codes instead of ints

2010-05-12 17:02 - Chad Berkley

Status:	Closed		**Start date:**	
Priority:	Low		**Due date:**	
Assignee:	Chad Berkley		**% Done:**	100%
Category:	Metacat		**Estimated time:**	0.00 hour
Target version:	CCI-0.4			
Milestone:	None		**Story Points:**	
Product Version:	*			

Description

The error codes passed to exceptions are currently integers. they should be strings and should conform to this list:

http://mule1.dataone.org/ArchitectureDocs/apis.html#method-exception-cross-reference

History

#1 - 2010-05-17 17:19 - Chad Berkley

- Status changed from New to Closed

All error codes are now strings.
