Update from David Valentim Dias dvdscripter@gmail.com on Aug 15th, 2014:

Hi Benjamin,
I finally got the certification for ppbio.inpa.gov.br. Right now all my root access are removed because of new administrative measures but I should be able to install soon.

Looks like their server is still using the self-signed certificate even though they have purchased a GoDaddy certificate to use with this host.

- Status changed from In Progress to Closed
- translation missing: en.field_remaining_hours set to 0.0

Their GoDaddy server certificate is now installed correctly.
