<b>Target version:</b>	CCI-2.0.0		
<b>Story Points:</b>			
<b>Description</b>			
<b>Subtasks:</b>			
Task # 6725: add new tests for v2 methods			<b>Closed</b>
Task # 6726: deploy new MN WebTester			<b>Rejected</b>
Task # 6731: test new tests against v1 MNs and CNs			<b>Closed</b>
Task # 6736: determine reuse design / strategy			<b>Closed</b>
Task # 6774: make test certificate subject labels (filenames) Windows compatible			<b>Closed</b>
Task # 7065: Create functional tests for v2 SystemMetadata updating use cases.			<b>Closed</b>
Task # 7066: Come up with the different use cases that need to be tested			<b>Closed</b>
Task # 7067: Write the tests			<b>Closed</b>
Task # 6724: refactor d1_integration for v2			<b>Closed</b>
Task # 6727: refactor tests for reuse			<b>Closed</b>
Task # 6737: refactor existing API test classes			<b>Closed</b>
Task # 6728: adapt d1_integration classes to v2 libclient			<b>Closed</b>
Task # 6729: refactor architecture tests for v2 client			<b>Closed</b>
Task # 7198: Implement integration tests for the new token authentication mechanisms			<b>Rejected</b>

#### Associated revisions

##### Revision 15206 - 2015-02-11 21:07 - Andrei Buium

Mainly changed AbstractAuthorizationTestImplementations because it was working for MNs but was using the wrong certificate to call create() for CNs. CNAuthTestImplementations needed updates for the same reason.

Also MNAuthorizationV2IT had a typo and was extending the wrong class, so I fixed that and did away with the setApiVersion().

##### Revision 15694 - 2015-05-28 22:48 - Andrei Buium

Committing a handful of test-related changes. Also added CNDiagnostic interface (though I didn't include it in v2 CNode interface's inheritance for now, to avoid creating errors for others). CNDiagnostic has however been added to libclient's D1NodeFactory so we can have d1\_integration's call adapters create a node for that interface. The added test code is mainly for CNDiagnostic and MNPackage, plus helper methods in ContextAwareTestCaseDataone, etc.
