- Assignee changed from Jing Tao to Ben Leinfelder

Since setting archive=true will not delete solr index for an object, we need a new mechanism to remove solr index for the MN/CN.delete method.

#3 - 2015-07-16 22:51 - Jing Tao

I am not sure if we really need a new mechanism for deleting solr index. It maybe stays there. Please see the ticket for CN:

<https://redmine.dataone.org/issues/7242>

Anyway, we need to test it.

#4 - 2015-07-21 22:21 - Jing Tao

- Status changed from New to Rejected

- translation missing: en.field_remaining_hours set to 0.0

This morning we discussed this feature and decided the archived the object should NOT stay on the cn and mn solr index. So I rejected this ticket.
