Infrastructure - Task #6761

Story # 3642 (Rejected): Deprecate, migrate, or replace cn-stage-2 environment

unregister extraneous nodes in STAGE-2

2015-01-14 00:49 - Matthew Jones

Target version:	Maintenance Backlog		
Milestone:	None	**Story Points:**	
Product Version:	*		

Description

Stage-2 is to be used for testing, and it has several unmaintained nodes, and those that are left over from prior testing. Remove these, but only after first checking with the node operators that its ok to do so:

- urn:node:mnDemo1
- urn:node:mnDemo2
- urn:node:ONEShare_test
- urn:node:mnTestPPBIO
- urn:node:mnTestKNB

This will leave just a single MN in the repo.

Also, decide whether to maintain three CN nodes in this environment, or just 1, and make the changes.
