USGS Science Data Catalog (SDC)

2015-05-06 20:53 - Laura Moyers

Status:	Operational	Start date:	2015-05-07
Priority:	Normal	Due date:	
Assignee:	Laura Moyers	% Done:	83%
Category:		Estimated time:	0.00 hour
Target version:	Operational	MN_Date_Online:	2015-11-12
Latitude:	35.93	Name:	
Longitude:	-84.31	Logo URL:	
MN Description:	The Science Data Catalog is an initiative by the USGS Core Science Analytics and Synthesis (CSAS) program to locate, evaluate, and access Earth Science data and information. It contains standardized metadata descriptions of Earth Science data sets and information products -- contributed from USGS research organizations -- to help scientists discover a broad spectrum of data.		
Base URL:	data.usgs.gov/datacatalog/	Date Upcoming:	
NodeIdentifier:	urn:node:USGS_SDC	Date Deprecated:	
MN Tier:	Tier 1	Information URL:	
Software stack:	slender node	Version:	
Description			
The Science Data Catalog describes USGS-produced, authoritative data that have undergone the data release process outlined in USGS Fundamental Science Practices. The Catalog includes metadata describing individual datasets, data collections, and observational or remotely-sensed data contained in national systems (rather than records about individual observations).			
Content formerly available in the USGS CSAS Member Node is now available at the SDC.			
Subtasks:			
Task # 7083: USGS SDC metadata issues with CSDGM			Closed
Task # 7461: Determine how to handle metadata which is well-formed but does not validate			Closed
Task # 7467: USGS SDC - Transition to production			Closed
Bug # 8211: USGS_SDC not responding as expected on /monitor/ping			Closed
Bug # 8295: USGS base URL changed to https			Closed
Story # 8683: USGS SDC: redeploy as a v2 Slender Node with GMN			New
Task # 8526: duplicate data sets for USGS node + archiving			Closed
Related issues:

History

#1 - 2015-05-30 00:28 - Laura Moyers

- Status changed from New to Ready

#2 - 2015-05-30 00:31 - Laura Moyers

- Status changed from Ready to New

#3 - 2015-05-30 00:32 - Laura Moyers

- Status changed from New to Ready

#4 - 2015-07-08 15:05 - Laura Moyers

- % Done changed from 0 to 50
- Status changed from Ready to Testing

~1200 of ~6000 total records are in the stage environment. We plan to proceed with the partial corpus until the remainder can be addressed.

#5 - 2015-08-24 14:39 - Laura Moyers

- Related to MNDeployment #3552: USGS CSAS added

#6 - 2015-10-09 18:16 - Laura Moyers

- Target version changed from Deploy by end of Y1Q4 to Deploy by end of Y2Q1
- Assignee changed from Mark Servilla to Laura Moyers

SDC originally set up in sandbox. Ranjeet et al. made some changes to the content (that passes validation). This new content will be harvested in the stage environment to ensure no adverse impact from these changes before transitioning to production. Certificates for production have been generated (7/8/15).

Laura to work with Ranjeet to develop a news item to put out for formal announcement. We'll also need a logo/MNDD so we can show SDC as upcoming.

#7 - 2015-10-30 15:51 - Bruce Wilson

Discussed the issue of some metadata not validating according to the declared schema at the LT meeting October 30, 2015. The conclusion from this meeting is that we will ensure that the metadata that passes validation gets ingested. There is a separate task to decide how best to handle the data which is at least well-formed XML but doesn't match the schema that's declared in the file.

#8 - 2015-11-05 13:18 - Laura Moyers

- MN Description set to *The Science Data Catalog is an initiative by the USGS Core Science Analytics and Synthesis (CSAS) program to locate, evaluate, and access Earth Science data and information. It contains standardized metadata descriptions of Earth Science data sets and information products -- contributed from USGS research organizations -- to help scientists discover a broad spectrum of data.*
- Base URL set to http://usgs.ornl.gov/USGS_MN/mn
- NodeIdentifier changed from urn:node:SDC to urn:node:USGS_SDC
- % Done changed from 50 to 80
- Status changed from Testing to In Review

Approved in production 11/4/15.

#9 - 2015-11-12 20:45 - Laura Moyers

- MN_Date_Online set to 2015-11-12
- Status changed from In Review to Operational

Announced 11/12/15; live in production with 4464 records. Tickets 7083 and 7461 address the remaining ~1400 records which do not currently pass validation due to the presence of ESRI tags.

#10 - 2015-11-12 20:45 - Laura Moyers

- Target version changed from Deploy by end of Y2Q1 to Operational

#11 - 2015-11-13 16:08 - Laura Moyers

The USGS CSAS MN will be deprecated. As part of this process, CSAS content will need to be replicated at another MN, and we are considering replicating that CSAS content at SDC. Since SDC is currently Tier 1, we'll have to evaluate the ramifications of taking it to Tier 4, allowing replication.

#12 - 2016-02-15 16:29 - Laura Moyers

- Base URL changed from *http://usgs.ornl.gov/USGS_MN/mn* to *data.usgs.gov/datacatalog/*

#13 - 2016-06-05 11:08 - Laura Moyers

- Software stack set to *slender node*

#14 - 2018-01-09 20:55 - Dave Vieglaiss

- Sprint set to *Ongoing Operational*
