Python GMN - Task #7162

Member node does not check with coordinating node before replicating

2015-06-05 23:49 - Mark Flynn

Description

Replication is supposed to follow a sequence:
CN — MN.replicate( ) —> newReplicaMN
newReplicatMN —- MN.getReplica( ) —> sourceMN
sourceMN — CN.isNodeAuthorized() —> CN
newReplicaMN — CN.setReplicationStatus( ) —> CN

However, CN.isNodeAuthorized is not called before sourceMN replicates to newReplicaMN
