Infrastructure - Bug #718

Random selection of metacat identifiers seem to have extra whitespace at end

2010-07-22 15:04 - Dave Vieglais

Status:	Closed		**Start date:**

Description

Some of the identifiers returned in listObjects from Metacat seem to have whitespace appended. Identifiers should not have whitespace at the start or end of the string.

e.g. http://knb-mn.ecoinformatics.org/knb/object?count=1

<?xml version="1.0" encoding="UTF-8"?>

this was a bug in the list objects interface. it wasn't trimming the whitespace from the metacat query result document.
