Description

The method `d1_log_aggregation_v1.4/src/main/java/org/dataone/cn/batch/logging/GeoIPService.java/initLocation` calls

`"System.out.println("country: " + country + ", region: " + region + ", city: " + city);"`, which should be removed. Another call `"System.out.println("location not found");"` should be changed to `logger.warn(...)`
