

Log Reporting - Bug #7305

KNB not reharvested after restart

2015-08-20 19:36 - Robert Waltz

Status:	Closed	Start date:	2015-07-21
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	d1_log_aggregation	Estimated time:	17.00 hours
Target version:	CCI-1.5.2		
Story Points:			
Description			
1.5 version of Log Aggregation requires only a single cluster instance of hazelcast run while log aggregation is running. cn-orc-1 and cn-ucsb-1 were joined in a hazelcast cluster during the timeframe of 7/9/2015 until 8/13/2015. This configuration prohibited KNB from being re-harvested.
