Infrastructure - Task #7331

Story # 6852 (Closed): Log Aggr V2 Compliance

Add version compliance indicator to index

2015-09-08 19:08 - Robert Waltz

Status:	Closed		**Start date:**	2015-09-08
Priority:	Normal		**Due date:**	
Assignee:	Robert Waltz		**% Done:**	100%
Category:	d1_log_aggregation		**Estimated time:**	0.00 hour
Target version:	CCI-2.0.0			
Milestone:	CCI-2.0		**Story Points:**	
Product Version:	*			

Description

v2 of LogEntry is not backwards compatible with v1 of LogEntry.

In the Log Event index, To receive v1 Log from log entries harvested from a v2 membernode, then a compliance indicator will be set. The compliance indicator will help discover which LogEntry items may be serialized from a v1 endpoint.

The compliance indicator values are either 'v1' or 'v2'. Any query to the cn's log v1 endpoint will return all records that have the indicator set to 'v1'.
