

Log Reporting - Bug #7359

All coordinating nodes' metacat log entries must be harvested

2015-09-16 21:11 - Robert Waltz

Status:	Closed	Start date:	2015-09-16
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	d1_log_aggregation	Estimated time:	0.00 hour
Target version:	CCI-2.0.0		
Story Points:			
Description			
LogAggregation originally was designed such that each CN was responsible for harvesting its own Metacat logs with hazelcast distributing entries to the other CNs.			
Now that LogAggregation is only running on the active node , the log aggregation should harvest from all of the CNs.
